

DIGITVILLA

ANDROID & iOS APP DEVELOPMENT — EXPO 2026

Expo Special Development Pricing | Stall E10

Build your business app for Android & iOS with cross-platform or native solutions based on project requirements.

Package	Expo Price	Suitable For
App Starter	₹35,000	Simple business / service app
Business App	₹60,000	Customer-facing business app
E-Commerce App	₹85,000	Shopping / product-based business
Custom App	From ₹1,25,000	Advanced workflows & integrations

What's Included

- Android + iOS application from a shared codebase where suitable
- Modern mobile UI and navigation
- Backend/API integration
- User authentication where applicable
- Basic push notification setup
- Testing, bug fixing and production build
- App launch support and basic handover

Package Scope

App Starter: Up to 6 core screens; basic forms/content; API integration; simple business/service use case.

Business App: Up to 12 core screens; login/profile; API integration; notifications; common business workflows.

E-Commerce App: Product catalog; search/basic filters; cart; checkout; order flow; one payment gateway; API integration.

Custom App: Quoted after requirements for complex workflows, booking, logistics, subscriptions, dashboards and advanced integrations.

Important — Separate Costs

- Google Play Console and Apple Developer account fees are paid by the client.
- Payment gateway, SMS, WhatsApp, maps, email, cloud, hosting, SaaS/API and other third-party charges are separate.
- Large-scale data/product entry, photography, content creation and marketing are not included.
- Major new features or changes outside agreed scope are quoted separately.

Native vs Cross-Platform

Digitvilla recommends the appropriate architecture based on performance, device features, integrations, budget and business requirements. Native Android/iOS development can be quoted separately where required.

Payment & Typical Timeline

Payment: 50% advance | 30% after core development/demo | 20% before final production handover.

Typical: Starter 3–5 weeks | Business 5–8 weeks | E-Commerce 6–10 weeks | Custom: scope-based.

Expo prices are introductory development prices for the defined scope. Additional requirements are quoted separately.
